Exploring everything CSE has to offer and more
Ahmedabad, Gujarat, India

Summary

Currently studying Computer Science Engineering as an Undergraduate at International Institute of Information Technology, Hyderabad (IIIT-H).

I am currently passionate about Neural Networks and various machine learning models. As a part of prior and ongoing courses in the curriculum, I am intermediately skilled at Front-end Development using HTML/CSS/Vanilla JS, and am delving into React and Angular JS. I have also worked on Flutter for Application Development. I have done Back-end in Django and Flask. I have working proficiency in Python, C and C++.
